

We take a very limited number of dogs in for training each month, our goal is the quality of the training experience rather than maximizing the quantity of dogs we have in for training each month. When you send your dog to us for training you can expect the following.

- Five training days each week
- 1-2 sessions daily
 - Each session lasts 15-60 minutes
- At drop off, we will conduct a brief evaluation with your dog to establish where they're at in their training and discuss training goals for your dog.

What to Bring

Proof of current vaccinations from your veterinarian are required when your dog arrives for training. Please ensure you have the appropriate documentation when you arrive.

Vaccination Records

- Rabies Vaccination
- Bordetella (Kennel Cough) Vaccination
- DHLPP Vaccination
 - (distemper, hepatitis, leptospirosis, parvo, and parainfluenza)
- Monthly Preventative Medications
 - Heartworm Preventative
 - Flea/Tick Preventatives
 - Other Medications?
- Balance of first month's training (\$900)

What Not to Bring

- Training Equipment
- Toys
- Bedding

At Drop Off

Expect to spend 30-60 minutes at drop off with your dog. We'll head into the field to establish a baseline of where your dog is currently at in their training and discuss your goals for your dog. Before you leave, we'll create an individual training plan for your dog.

At Send Home

Expect to spend 1-2 hours when you arrive to pick up your dog. We'll head into the field to demonstrate what your dog has learned and we'll spend time going over the cues and commands your dog understands. It's important that you maintain consistency in training your dog to prevent regression in their new skills!
